Coolant Products

THE NEW COOLANT POINTER

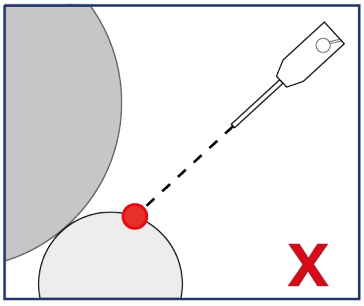
Are you having difficulties aligning your lubricoolant nozzles precisely?

...then the Coolant Pointer is exactly the right product for you.

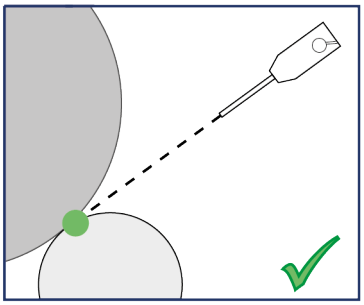
YOUR ADVANTAGES:

- Precise positioning and orientation of the Grindaix nozzle
- Avoidance of grinding burn through precisely aligned lubricoolant jet
- Position inspection of profiled Grindaix nozzles by simultaneous use of two Grindaix laser units
- Battery-operated - no annoying cables in the machine room
- Simple handling: mount on the needle nozzle, switch on – READY!

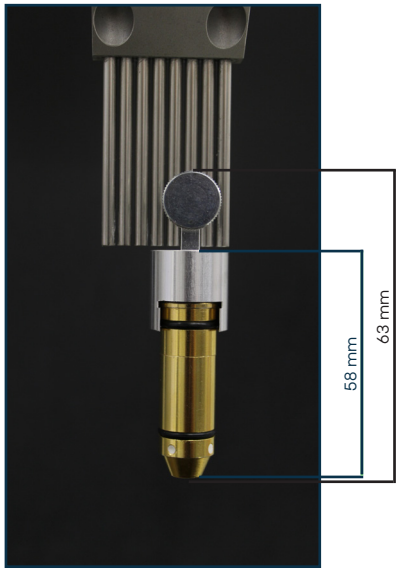
1 Misaligned nozzle

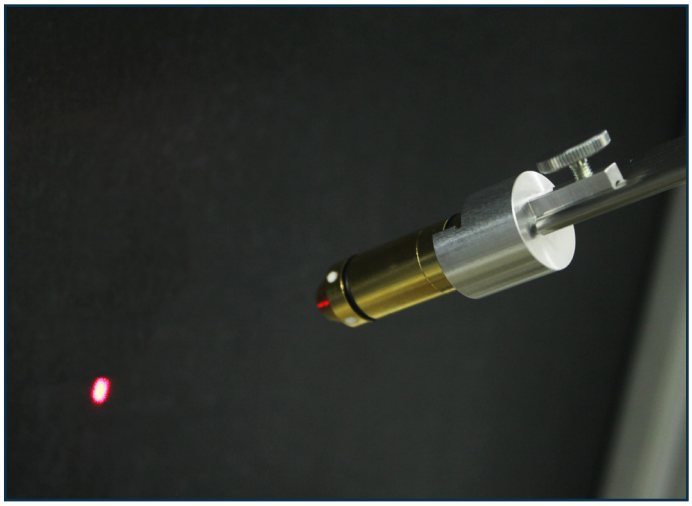


2 Lubricoolant jet hits the right spot



Visualization of the lubricoolant impact point on your tool by means of laser technology





Note: Product may differ visually from the picture!
