

## Coolant Products

# COOLANT POINTER

Visualization of the lubricoolant impact point on your tool by means of laser technology

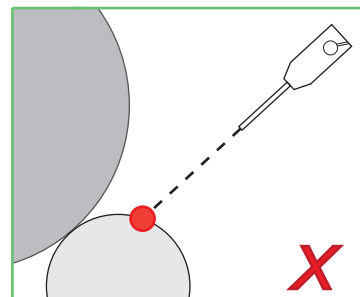

Are you having difficulties aligning your lubricoolant nozzles precisely?  
...then the Coolant Pointer is exactly the right product for you.

### YOUR ADVANTAGES:

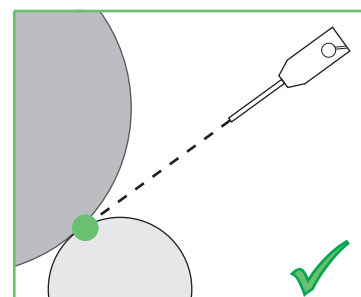

- + precise positioning and orientation of the grindaix nozzle
- + avoidance of grinding burn through precisely aligned lubricoolant jet
- + position monitoring of profiled grindaix nozzles through the simultaneous use of two grindaix laser units on a grindaix nozzle
- + simple handling: mount on the needle nozzle, switch on - READY!

### 1 Misaligned nozzle

### 2 Lubricoolant jet hits the right spot
