

Coolant Products

THE NEW COOLANT POINTER

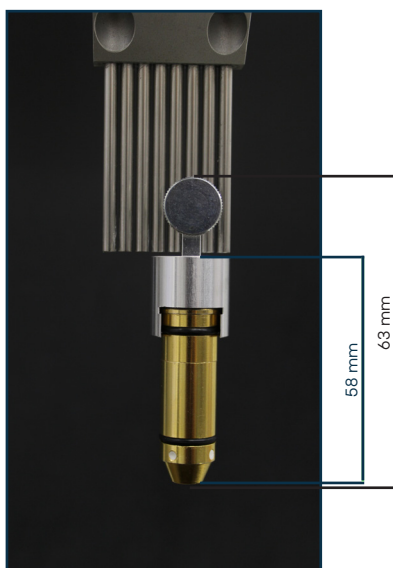

Are you having difficulties aligning your lubricoolant nozzles precisely?

...then the Coolant Pointer is exactly the right product for you.

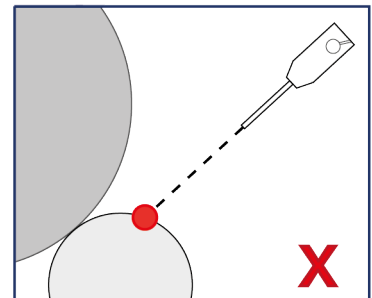

YOUR ADVANTAGES:

- + Precise positioning and orientation of the Grindaix nozzle
- + Avoidance of grinding burn through precisely aligned lubricoolant jet
- + Position inspection of profiled Grindaix nozzles by simultaneous use of two Grindaix laser units
- + Battery-operated - no annoying cables in the machine room
- + Simple handling: mount on the needle nozzle, switch on - READY!

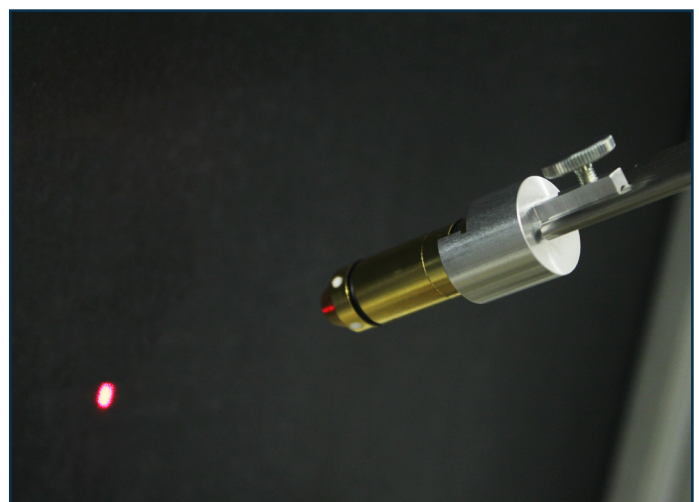

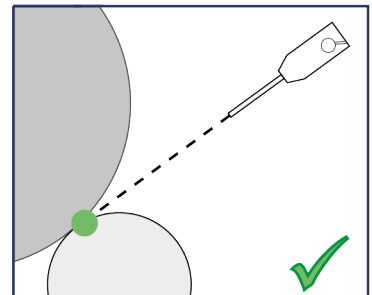

Visualization of the lubricoolant impact point on your tool by means of laser technology

1 Misaligned nozzle

2 Lubricoolant jet hits the right spot
